However, bank processors (like ACH in the U.S.) generally operate only during business days. A transfer initiated late at night or on weekends may not be completed until the next business day. 🕒 **Blockchain Confirmations** Crypto transactions are broadcast to the blockchain immediately. The time it takes to get confirmed depends on network congestion, not Coinbase. So while Coinbase accepts the transfer any time, the blockchain may take longer to confirm it during busy periods. So although you can make the request 24/7, timing delays may occur due to bank schedules or blockchain network traffic. 🆘 **Support & Help Options** Coinbase provides online help tools 24/7: 📖 **Help Center Articles & Guides** – Available anytime. 🗨️ **Automated Support Chat** – Available around the clock. 📧 **Submit a Support Ticket** – You can send a request at any time; response times vary. However, customer support response times may not be instant. During periods of high demand or market volatility, you might experience longer wait times to get a reply from a live agent. Still, you can file your request and continue managing your account while you wait for a response. 🔒 **Security Monitoring** All the Time Coinbase also runs security
